

*What is your sign?*

We hope your sign is the Sign of the Cross and not some silly zodiac sign. Many foolish celebrities promote such anti-Christ fads as if they were the latest good news. The mass media profits by it because people don't realize what they are getting into.

What do you answer when people ask about your sign? Are you curious about your horoscope? You should know astrology is a pagan religion that puts faith and hope in something other than our God. Superstitious religions are especially dangerous to individual Christians who dabble in them. Our Holy Church has always warned us about this. These foolish practices not only detract from the truth, but substitute a lie for a place Jesus should have in our life. Even a casual interest in such things can be a doorway for the evil one. Satan, after all, is the father of all lies and there is no truth in him.

We, the Baptized, are in a special covenant of faithfulness to our God. If we live under the shadow of any sign other than the sign of the cross, we are worshiping false gods. This is true to some extent even if we think it's just for fun. In playing with falsehood we are missing out on the truth that sets us free. Holy Scripture reminds us that Jesus is the, "Truth," and source of all reality.

Next time anyone asks you what your sign is, simply cross yourself and say, "My sign is the Sign of the Cross."
