

Ray of heaven

By Michael Mondloch 1999

C G/B Am Am7/G

The great hope from heaven God's pure loving ray

F G Gsus2/G

The ray came to earth on a cold wintry day

C G/B Am Am7/G

He was born in a stable that fruitful of nights

F G C

With the lowing of cows for a song, a star for a light

C G/B Am Am7/G

The night was all blustery oh the stars they did shine

F G Gsus2/G

The angels were singing from heaven Divine

C G/B Am Am7/G

The babe he was born on that cold wintry morn

F G C

The angels announced in on a great a great Golden Horn

C G/B Am Am7/G

The Wisemen gave homage the Shepherd bowed down

F G Gsus2/G

The babe he was covered in a swaddling gown

C G/B AM Am7/G

The Earth it had never got such a great gift

F G C

As the babe that was born here on poverty's rift

C G/B Am Am7/G

We all the many behold this great day

F G Gsus2/G

The words of this savior are here now to stay

C G/B Am Am7/G

The love that he transferred to earth that great morn

F G C

Was passed on to us by a babe a babe so forlorn
